

## Easter

Lots of end of term activities have been keeping us busy this week, making chocolate Easter nests, decorating jars to make chick and rabbit vases. 6<sup>th</sup> form have also decorated boiled eggs as a traditional Eastern European celebration. With all these activities I am not sure how we have managed to fit in any work but there have been assessments all week in core subjects for year 10 and our Science A level students have completed assessments too. Also Mia and Henry have completed an exam for their Painting and Decorating course at College, passing with flying colours.

After such a busy week students deserve a well earned break and we wish you all a Happy Easter.
