

Vocational 6th Form Newsletter

2023/24

16-19

A bridge between school and college or work placements and apprenticeships, giving young people opportunities to learn how to do things for themselves in real life situations.

The sixth form base is closely aligned with our young people's desire for more independence and a more 'grown up' feel to their school day. This provision is a bridge between school and college or work placements and apprenticeships. It will give young people opportunities to learn how to do things for themselves in real life situations.

For some the work will closely link to our work experience programmes and internships for others it will be more based on learning how to live more independently or enabling them to have a greater number of choices as they move on in the future.

The facilities at Middlefield Lane include two kitchen areas, the work skills DIY practical workshop, offices and usual classrooms as well as outside growing areas and areas for leisure.

This week at V6F:

It has been fantastic welcoming everyone back to Vocational Sixth Form this week. Everyone has had a relaxing break and is now returning to working hard. We have work experience starting up again and lessons at Middlefield Lane are back in full swing.

Young people have been practising their skills in the community - visiting a cafe, ordering their food and enjoying a delicious meal!

KEY STAGE NOTICES -

Be prepared for going out into the community, especially bearing in mind the cold and rain.

Lots of our young people have been working so hard on their phonics, to help them with reading and writing. They have been practising these skills in a sensory way, by making letters in sand or shaving foam.

Some young people have been learning about different types of transport. They observed the different traffic around school and then took a survey of the transport they saw. They needed to use their maths skills to create a tally chart.
