

Vocational 6th Form Newsletter

2023/24

16-19

A bridge between school and college or work placements and apprenticeships, giving young people opportunities to learn how to do things for themselves in real life situations.

DGS DOROTHY
GOODMAN
SCHOOL

The students have started looking at Photography as part of 'Hobbies' in their Healthy Living lessons. They have created some wonderfully artistic pieces using a longer shutter speed and some orb lights.

This week at V6F:

Young people have been embracing a wide range of opportunities this week and they have worked especially hard at supporting each other and working together. Their empathy and social skills have been fantastic!

Various groups of young people are working hard to maintain their physical health by visiting the gym each week. They have plans to follow to help them know which exercises to do and for how long. Everyone is becoming more independent in following their plans and they are enjoying their sessions!

During forest school sessions, young people have been working on looking after wildlife. They have created bird feeders and placed them in the woods.

KEY STAGE NOTICES -

Be prepared for going out into the community, especially when cold or raining.

As part of their work on different modes of transport, some young people have been experiencing riding a bike. They also practised their direction skills.

One group of young people visited Green Towers to experience tennis coaching sessions. They all thoroughly committed to the lesson and had a fantastic time showing off their tennis skills.
